GigShield

AI-Powered Protection for India's Gig Workers

Team XAX - Guidewire DEVTrails 2026

The Problem

500,000+ Gig Workers in India

- **Zomato, Swiggy, Zepto, Blinkit** delivery partners
- **20–30% income loss** from weather disruptions
- **No protection or safety net** today

The Gap

- **Traditional insurance is too complex**
- **No products designed for gig workers**
- **Weekly income needs weekly protection**

Our Solution

GigShield - Parametric Insurance

- **Automated coverage** and payouts
- **AI-powered fraud detection**
- **Weekly pricing model** (₹25-100/week)
- **Zero-touch claims**

How It Works

01

Worker registers in 30 seconds

02

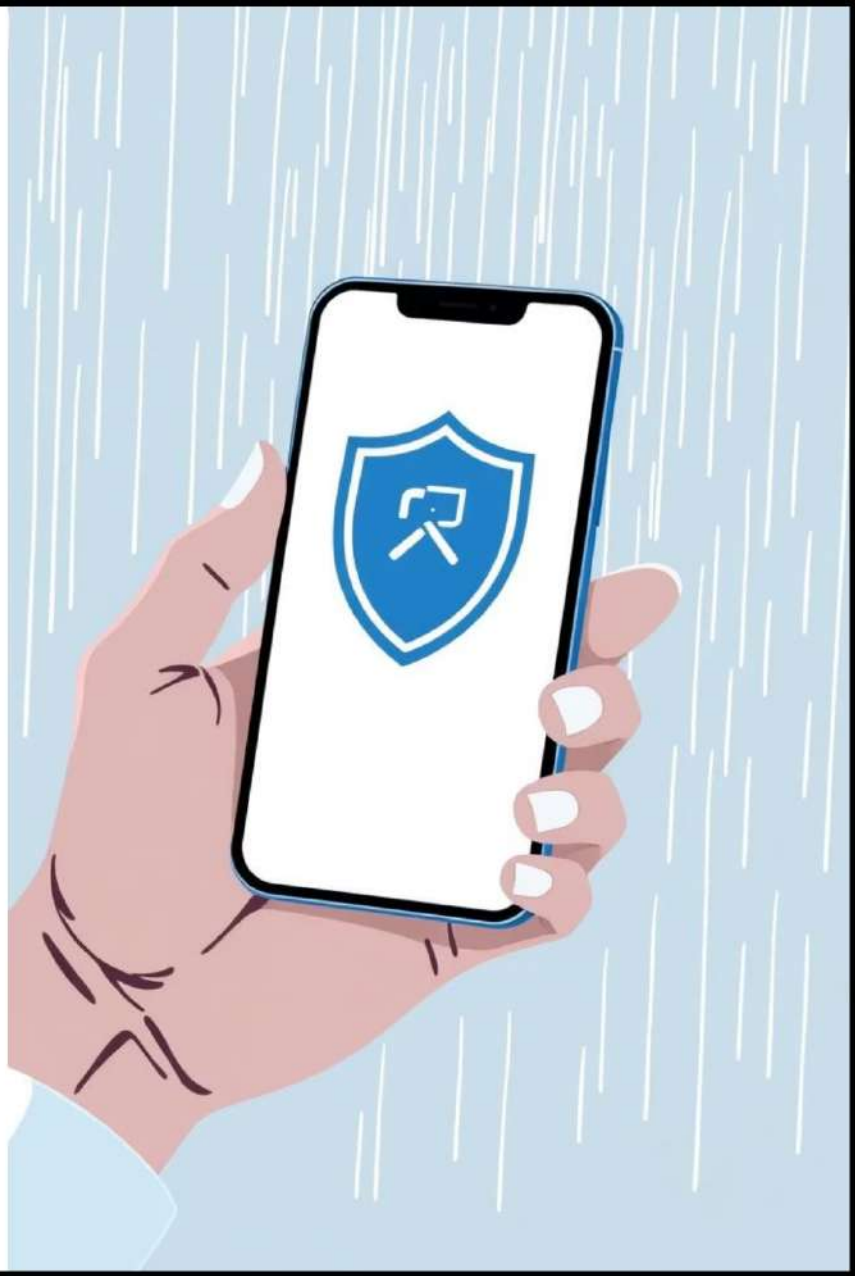
AI calculates fair premium

03

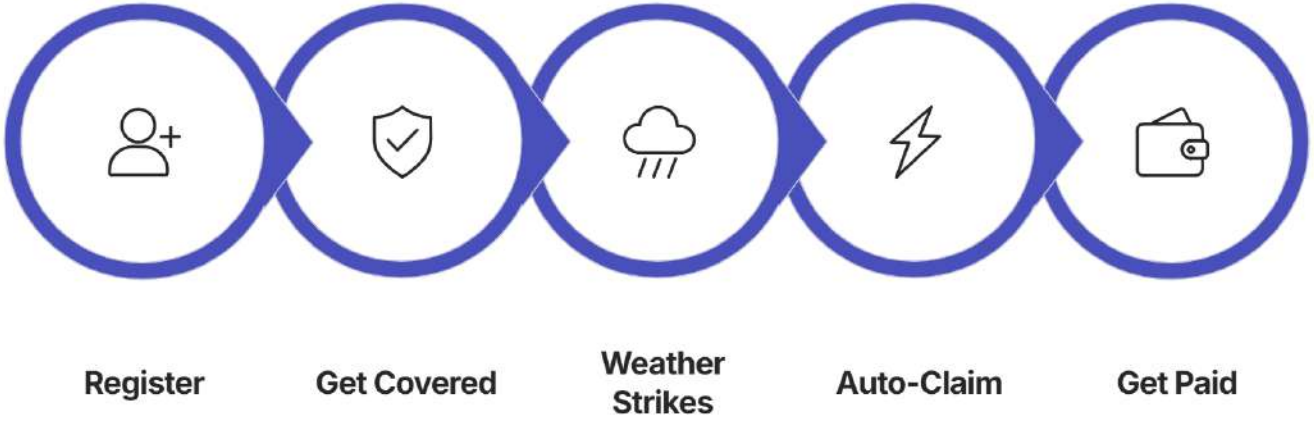
Weather triggers automatic claims

04

Instant UPI payouts



How It Works



Our seamless process ensures gig workers are protected and compensated automatically when adverse events occur.

9 Parametric Triggers

- Rain
- Heat
- Pollution
- Flood
- Curfew
- Strike
- App Outage
- Demand Surge
- Traffic

AI Architecture

Three AI Modules

Premium Calculator

- Location-based risk scoring
- Dynamic pricing (₹25-100/week)
- Behavior-adjusted premiums

Fraud Detector

- GPS spoofing detection
- Ring fraud identification
- Behavioral analysis

Risk Model

- Predictive analytics
- Loss ratio modeling
- Claim probability forecasting

Market Opportunity

₹5,000

₹5,000 Crore TAM

The total market if every gig worker were covered.

₹500

₹500 Crore SAM

The portion of the market we can realistically serve.

₹50

₹50 Crore SOM

Our short-term share within the reachable market.

10,000

10,000 Workers in Year 1

Active users targeted by the end of the first year.

Unit Economics

₹45

Average Premium / Week

Average weekly payment from each gig worker.

48%

Gross Margin

Profit retained after direct costs.

35%

Claim Rate

Expected share of policies that result in a payout.

Business Model

Weekly Subscription

Low Risk	Medium Risk	High Risk
₹25/week	₹50/week	₹75/week

Revenue Streams

- Premium subscriptions
- Partnership fees
- Data insights

Traction

What's Built

- Working platform (Vercel deployed)
- Real Razorpay integration
- Advanced fraud detection
- Analytics dashboard

Metrics

- 10 cities covered
- 6 delivery platforms
- 9 parametric triggers
